Register for dial-in number: [Register Here](#)

Advanced registration is required for dial-in participants. Please complete the linked registration form above to receive a dial-in number and dedicated PIN for accessing the conference call. A live audio webcast of the conference call will also be available and archived for approximately 90 days in the [Events](#) section of SiTime's Investor Relations website.

About SiTime

SiTime Corporation is the Precision Timing company. Our semiconductor MEMS programmable solutions offer a rich feature set that enables customers to differentiate their products with higher performance, smaller size, lower power and better reliability. With more than 4 billion devices shipped, SiTime is changing the timing industry. For more information, visit www.sitime.com.

About Precision Timing

Timing is the heartbeat of all electronics, ensuring performance, resilience and scalability. For decades, quartz devices, non-silicon technology, have kept systems in sync, but they struggle in harsher, more demanding environments. MEMS-based Precision Timing delivers greater accuracy, smaller size and resilience. Today, MEMS timing powers over 400 applications, including high-growth ones in AI datacenters, automated driving, industrial and humanoid robots, wearables and IoT.
